MB-450 mattebox.

Full option, high-end production mattebox, two fully rotatable 5,65"x5,65" (or two 4"x5,65") filterframes, one non rotatable 4"x5,65" filterframe and one 4"x5,65" filter in the hood. Internal eyebrows, and a foldable top flag. Max. lens diameter of 144mm.

#0400-0451

Barsadapter for MB-450.

Adapter with quick-lock mechanism.

If a Vocas MB-450 mattebox is used on a standard 15mm lightweight rail support, this (or #0460-0200) adapter is always needed.

#0460-0001

Swing-away bracket for MB-450.

This bracket enables the user to quickly change lenses without having to disassemble the mattebox setup. If a Vocas MB-450 mattebox is used on a standard 15mm lightweight rail support, this (or #0460-0001) adapter is always needed.

#0460-0200

144mm adapter rings for MB-450.

Flexible adapterring.

Soft rubber donut ring. Required if a mattebox is used on a rail support to fill the gap between the rear of the mattebox and the lens front. Max. lens diameter 138mm. This ring can hold an additional round 138mm filter.

#0420-0001

Adapterring for Panasonic AG-3DA1.

Dedicated adapter ring for this camera only.

#0420-0010

For more MB-450 mattebox accessories, please see our website.

MB-210 mattebox.

Compact basic mattebox, one fully rotatable 4"x4" filterframe, and one 4"x4" filter in the hood. Max. lens diameter of 105mm. The French flag is optional.

#0200-0210

MB-250 mattebox.

Advanced compact mattebox, one fully rotatable 4"x4" filterframe, one 4"x4" non rotatable, internal eyebrows and a French flag. Max. lens diameter of 105mm.

#0200-0250

MB-255 mattebox.

Identical to the MB-250 but with a Max. lens diameter of 114mm. Including a step down ring to the Vocas 105mm. adapter ring system.

#0200-0255

Barsadapter for MB-2XX.

Height adjustable adapter with quick-lock mechanism.

If a Vocas MB-2XX mattebox is used on a standard 15mm lightweight rail support, this adapter is always needed.

#0360-0100

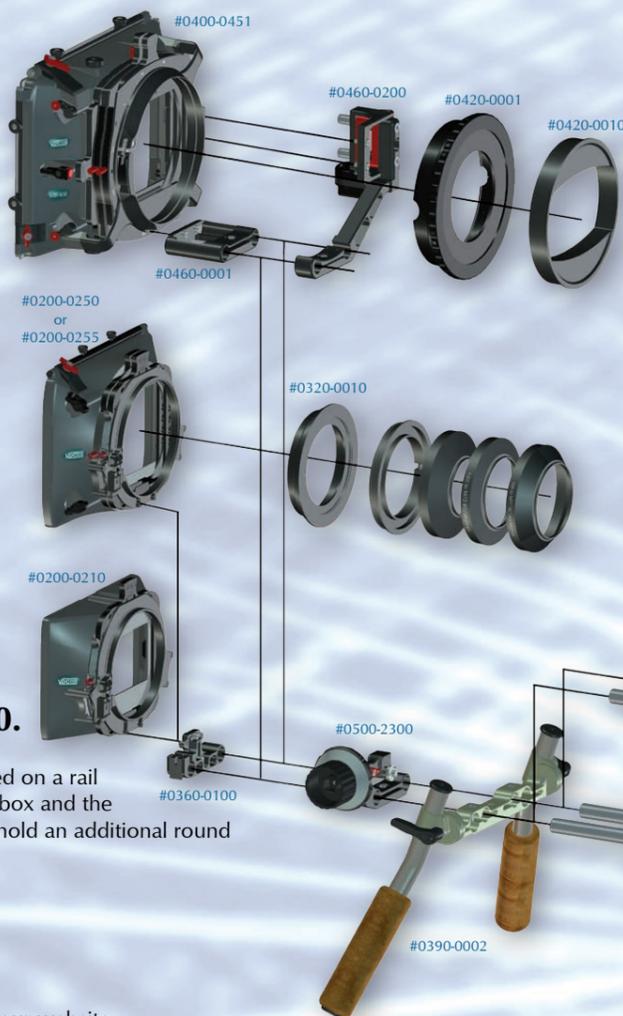

105mm flexible adapter ring kit for MB-2XX.

Soft rubber donut ring. Required if a mattebox is used on a rail support to fill the gap between the rear of the mattebox and the lens front. For 105mm matteboxes. Maximum lens diameter 95mm.

#0320-0010

105mm adapter ring system for MB-2XX.

If a mattebox is used as a clip-on, an adaptor ring is required to attach the mattebox to the lens. An extensive range of different size rings is available. Please see the MB-2XX accessory page on our website www.vocas.com for more details.

This 15mm lightweight rail support is compatible with many cameras such as the Panasonic AG-AF100(1), (not with the Panasonic AG-3DA1). And provides a stable platform for attaching multiple additional 15mm accessories. It includes a balance plate tripod attachment, allowing the user to position the camera on its centre of gravity when mounting it on a tripod. This rail support comes standard with a set of 15mm rails of 210mm in length.

#0350-0300

Pro rail support:

This double sided 15mm lightweight rail support is compatible with many cameras such as the Panasonic AG-AF100(1) and AG3D-A1. And provides an extremely stable platform for attaching multiple additional 15mm accessories. It includes an extra long balance plate tripod attachment, allowing the user to position the camera on its centre of gravity when mounting it on a tripod. This rail support comes standard with a set of 15mm rails of 350mm in length.

#0350-0600

15mm shoulder support:

A shoulder support that attaches directly to standard 15mm lightweight rails.

This shoulder support features a thick rubber pad which lets even a heavy camera setup rest comfortably on one's shoulder. It can be adjusted in angle to accommodate different body types and features attachment points on the back for battery holders or counter weights. This shoulder support includes 350mm long rails, which is sufficient to mount the shoulder support in most setups.

#0370-0001

15mm offset bracket:

Specifically made for use with the Vocas 15mm shoulder support and a mid-size video camera.

This offset bracket moves the shoulder support more to the right side of the of the camera, so the viewfinder is placed in front of the eye of the camera man. This item comes with two pieces of 15mm rails of 143mm in length, to allow the shoulder support to move more towards or away from the camera.

#0350-0021

Battery adapter plate:

For attaching the different brand's V-lock battery mount plates directly on the back of the Vocas 15mm shoulder support (instead of the counter weights).

#0370-0100

Shoulder support counter weight:

Specifically made for use with the 15mm shoulder support. This counter weight system comprises of an attachment plate, which is mounted directly to the back of the shoulder support, and stackable 1kg stainless steel weights. Weight attachment plate for Vocas shoulder support.

#0370-0200

Weight 1kg for Vocas Shoulder support.

#0370-0210

Handgrip set:

This handgrip set fits on any 19mm and 15mm lightweight rails and is ideal for use with the Vocas Shoulder bracket. The handgrips can easily be rotated, positioned and tilted to assume the perfect position for any situation.

Handgrip kit, including one handgrip

#0390-0001

Handgrip kit, including two handgrips

#0390-0002

15mm rails.

Vocas has an extensive range of various lengths of 15mm rails available, ranging from 35mm to 400mm. Please see the MB-2XX accessory page on our website www.vocas.com for more details.

Follow focus MFC-1.

This compact follow focus system, the MFC-1, enables the cameraman to control the focus with more precision. Attaches directly to any 15 mm lightweight support with a quick-lock clamper. Not compatible with the Panasonic AG-3DA1

#0500-0001
