CONFERENCES

## NEWS

Due to its high image quality and yet discreet size Orah 4i is the ideal camera for your news broadcast whether you are reporting from a remote location or your studio. Orah 4i has already streamed from various TV studios, tradeshows and red carpets all over the world!

## MUSIC

Place Orah 4i right on stage with the artist or suspend it upside down from the ceiling above the cheering crowd to give your audience an amazing viewing experience and make them feel like they are right there with their stars. Make it even more immersive with Orah 4i's ambisonic sound or insert your own professional external audio if you prefer.

## SPORT

Capture your next sports event live in 360 with Orah 4i - whether it's a baseball match, a skiing competition or a whole tennis tournament, Orah 4i has done all of it already. You can even make it a multicam live stream, placing cameras all around the event, offering different angles of immersion to your audience.

## CONFERENCES

Open up your conference to people all over the world or bring a unique live experience to the people attending your event! Simply put an Orah 4i in your university lecture, corporate presentation or press conference and stream it live to YouTube, Twitter or Facebook for anyone to follow.
