

LEDGO

Feature:

Two dimmers design, can control brightness of two sides separately, supply full ring same light effect or left-right contrastive light effect.

The LG-R332 LED Video Lighting features the cool, correct daylight balanced and high CRI LED light that faces professional videographer's latest demands on lighting solution. The LG-R332 continues the unique designs of Non-frame and transparent honey comb cover as front light guide board. It can be either used with DSLR RIG or put on the hot shoe adapter as an on camera LED light.
