ZGRIPS

Zacuto Zgrips exist in many different sizes and configurations. They are fully adjustable with arms that split and scissor for unlimited user configurations. The arms can also adjust toward the body or away from the body for added comfort with full articulation at the wrists. When shooting on a tripod, the arms quick-release out of the housing by the flip of a red lever. The Zgrips are extremely durable and are built to handle an incredible amount of pressure and stress. Made in the USA, Lifetime Warranty, and Universal.
